DR. S. N. INSLEY

SICIAN SUCCUMBED TO PERNICIOUS ANEMIA.

Was Known All Over Northern Mich igan as Physician and Surgeon.

After an illness of several months Dr. Stanley N. Insley died at about 11:00 o'clock Wednesday forenoon from pernicious anemia at his home in this city. For several weeks he had been low and any belief that he might recover were born purely from hopes. However he and his family and Dr. Keyport who was aided by several Detroit physicians, bravely kept up the best fight that care and science could suggest.

blood, hoping that he might be ben efitted but it appears the one great God above had called him and that there was nothing else to do but to

In February, 1912 Dr. Insley received a severe accident by being struck by a Michigan Central locomotive at Frederic, at which time he sustained the loss of both feet above the ankles, MERE DETAIL a fractured skull and arm and other injuries and for about six weeks mind was a blank and his his mind was a blank and his recovery was in doubt. He was taken to Harper hospital, Detroit, where he received the best attention that skill and science could give him and he made remarkable recovery. After a made remarkable recovery. After a few months he resumed his practice and appeared about as well as ever, except that he had to walk with ar-tificial feet, and went on with his work almost as tho he had never been interrupted.

interrupted.

When he returned from Harper hospital there were at the train to help welcome him home hundreds of school children and an enormous crowd of our citizens. The sight of this warm devotion moved Dr. Insley to tears and was a welcome that he remembered to his last days.

He was a member of the school board more than 15 years which of

board more than 15 years which of-fice he held at the time of his death. He served on the village council for several years and in all his public several years and in all his public work was keenly interested and pro gressive and gave much time to the fulfillment of his official duties.

Last winter the epidemic of influent and properties of the control of

za, was a hard one for him, and al-tho he suffered with illness he continued his service of mercy and it is believed by some that this may have done much toward bringing on his last illness.

last illness.

At the time of his death he was surrounded by the members of his family, among whom the ties of love were unbounded. Dr. Insley loved his family and they loved him. It is hard to give up this husband and father and it seems that they were in greater need of his care and guidance than at any other time in their lives.

lives.

For more than twenty-five years Dr. Insley had been practicing his profession of physician and surgeon in Crawford county and was often times called to give aid in other places beyond the borders of his home community. During all these years he was growing stronger and stronger into the confidences of the people until we believe that there was never a man in our county who was greater loved by all classes.

Dr. Insley was one of God's best men. He was endowed with a keen mind, and a noble character and was ever a true, loyal friend.

Word of slander, we never heard

word of slander, we never heard pass his lips and he was ever ready to give praise where praise was deserved. He was big, and broad of mind and up to a few years ago, had a strong physical bady. He was a hard worker and was never heard to complain when called out at unreasonable hours of the night or in severe weather to minister to the sick, even when he had been deprived of his own rest and sleep. The people of this community have much to thank Dr. Insley for and in their gratitude for what he has done for us we now bow our heads in deep sorrow at this time when his lifeless body lies asleep, never more to awaken, in that home he loved so well. His life among us has left an indelible impression of inspiration to do nobler things and to get away from the petty, mean things of life, and to practice more firmly those ideals of truer fellowship and of deeper gratitude and appreciation of the friends about us and a deeper devotion for the things that are good in life.

fellowship and of deeper gratitude and appreciation of the friends about us and a deeper devotion for the things that are good in life.

Mrs. Insley, who has been a most loyal wife and congenial companion thruout their married life was constantly with the Doctor during his illness and neither wanted to be out of the other's sight even for a brief time. Also the children, Stanley. Miss Margaret and Marius, were in constant devation to the care and wishes of their father. If being surrounded in one's last illness by a loving family of wife and children are any comfort to a man in his last hours, his must have been much cheered and comforted. To express words of sympathy to those who have lost so much, seems but little but everywhere there is the deepest sorrow in Grayling today, and the less of this most loyal citizen is keenly felt by thousands of old friends and associates.

The children of the schools were informed of the death of the Doctor and in respect to him sessions were dismissed for the remainder of the day.

Dr. Insley was born in Pleton, Ontario, Canada, June 29, 1869, and one of the most important subjects.

HEE! HO! ALL TOGETHER!

The spirit that gets things done is the "all together" spirit. The spirit that makes a better community is the same all together spirit. Anything that keeps that spirit alive is an as-set to the town. Hundreds in Gray-ling should aid that spirit by getting into the churches and catching the church spirit. The Michelson Memorial Church has some definite aims for community betterment. Many are already helping and there is room for many more.

You are doing his work!

Have you ever figured out just what he pays

Well, it costs a grocer about \$30.00 per week to deliver groceries to 600 customers. In other words, when these customers take the place of a delivery truck and carry their own purchases, the so-called "economy" store can afford to divide just \$30 between those 600 customers.

If you are one of those customers, then your share is just 5c. Is it worth it? It is the valuation you place on your time and labor?

We cater to people who are too intelligent to be impressed with the "economy store" fallacy. Our customers have confidence in our ability to serve them without their personal supervision.

They have learned that we are expert in our line, we recommend the best things for their use and we do not ask them to be our delivery boys.

FOX FARMING MAY SOLVE PROBLEM.

PROBLEM.

A Washington correspondent of Michigan daily papers recently wrote a lengthy article on fox farming in which he said "there are millions in it" and quoted from a government publication on the subject in which directions for the care of foxes are given, including their housing, the sort of a place in which to keep them and their feeding. Among other things it says that "a light, sandy soil with rather hard winters, and summers with considerable rainfall provide best surroundings for the fox." Possibly this will yet solve the question of what to do with the jack pine

No Great Act of Heroism Required. If some great act of heroism was necessary to protect a child from croup, no mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indi cation of croup appears, there are many who neelect it. Chamberlain's Courth Remedy is within the reach of all and is prompt and effectual.

BOSNIA IS HAND HIT

Suffers Greatly in the Wake of the War.

Factories and Railroads Hurt by US set-Food and Clothes Cost

Sarajevo, Bosnia.—Bosnia may be a long time recovering from the effects of the war.

Factory production is almost at a standstill, railroad transportation is irregular and uncertain, stores are bare of stocks, imports are much re duced, clothing and food are high in duced, clothing and tool are high in price, and there is much idleness among the people. The crops this year, however, are abundant and there is sufficient food to meet all needs.

The German and Hungarian signs which formerly appeared above the store windows have given place to placards in Serbian, and Sarajevo has taken on quite the appearance of a Serbian town. The Serbian inhabitants are of course quite content with the Belgrade government, but the Germans, Austrians and Turks are not quite so

happy.

There is a disposition, however, to accept conditions as they are and to hope for a resumption of the commercial activity and advantages which the people enjoyed at the hands of the Austrians. The friends of the Serbs and Jugo Slavs hope that with time the Serbian government will be able to match the prosperity and progress, which the Austrians and Germans

brought to the country.

Among the population America enjoys great prestige and respect. This is largely due to the timely help brought to the country by the American Red Cross and the United States food administration. Until the arrival of these relief agencies Americans had never before appeared in Bosnia in any considerable number.

The presence of the officers of the Red Cross and the food administration has had a splendid moral and educational effect among the Bosnians. Much of the rancor and harsh feeling engendered by the war has been removed, and through the work of these Americans the larger part of the peo-ple now look upon the United States as a friend, not as a foe.

Ohio Has Landlord Who Refuses to Profiteer

America's most remarkable landlord has been discovered at Akron, Ohio. He is a man who not only will not profiteer, but during the last six years has not increased the rents on his ten-ants at all. He is renting six modern five-room frame dwellings today at the same price which he charged the first year his tenants moved in. The houses rent at \$30 a month. Other similar houses here are renting at \$60 and \$75 a month,

"Molly Pitcher." Molly Pitcher was the first woman military officer in America. It is said she served eight years and was re-tired as an officer on half pay. Her correct name was Molly McGuire and he was born at Carlisle, Pa., on October 13, 1744. Her biographers differ somewhat as to details, but she is described as a sturdy, red-faced Irish woman who during the battle of Monmouth was engaged in carrying water to the soldiers, and when her husband, a cannoneer, was so badly wounded that he could no longer serve his gun his wife seized the rammer and took his place, which she filled with skill and courage. Molly was presented to General Washington, who conferred upon her the commission of a sergeant. Exactly how she came to be called Molly Pitcher seems to be in loubt.

William Penn.

In 1644 on Oct. 14 William Penn, founder of Pennsylvania, was born in London. He was the son of Ad-miral Sir William Penn. At the age of thirty-eight he came to America and settled in Philadelphia. He was a Quaker and his humanitarian and peaceful policies were strikingly shown in his dealings with the Indians. Of all the white settlers, Penn was the only one with whom they kept faith. The Indians trusted him completely and no treaty made with them by Penn was ever broken. The Indians, it is said, never attacked one of Penn's Quaker followers. William Penn spent but a short time in America, a trifle more than four years in all, broken by a return to England. In 1701 he returned to England, where he remained until his death at Ruscombe, Berkshire county.

The Successful Farmer

Raises Bigger Crops and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

BUREAU RECEIVES FINE CORN SAMPLES.

In response to the request of the Northeastern Michigan development bureau for samples of corn grown in the district, Secretary Marston has received some very fine samples which are being displayed in the window of the bureau's office in Bay City.

Mr. Marston, however, is after a much larger supply of samples of fine corn as he wants to make a big showing of it in connection with the bureau's regular display in the Michigan Central passenger station at Detroit. "Some of the samples which we have received from Cheboygan county, the most northern point in the district, show corn which would make the farmers in the great corn belt of Illinois show corn which would make the far-mers in the great corn belt of Illinois and Iowa sit up and take notice," said Mr. Marston, "and stuff of that kind, shown at the Detroit station, where thousamds of travelers view it every day, is bound to attract attention to the farming possibilities of our part of the state. I wish every farmer in of the state. I wish every farmer in the district who has corn of which he is proud, would either send a few ears to me, or take them to the nearest bank and ask them to see that I get them."

Beekeepers of Northeastern Mich-ran will be interested in the fact that igan will be interested in the fact that the Beekeepers' Association of Michigan is going to hold a two days' school of instruction at Bay City on February 9 and 10, which will be attended by many of the leading apiarists of the state and by experts on beekeeping from the Michigan agrigultural college.

Plans for the annual meeting of the Northeastern Michigan Development bureau are fast nearing completion. These meetings are in fact a reunion each year of the men who are interested in seeing northeastern Michigan grow and become more prosperous and they bring together public officials, business men and land concern from near course.

NEW YEAR GIFT OF EIGHT MILLION DOLLAR BONUS PATION IN FUTURE PROSPERITY.

Detroit, Mich., Dec. 31.—Henry Ford and his son, Edsel Ford, announced today the distribution of \$8,000,000 bonus among the 80,000 employees of all branches of the Ford interests and the inauguration of ar investment plan whereby every worker, from the man who wields a broom to the chief executives, may partici-

pate in the profits of the business. Bonuses, which will be paid in cash bonuses, which will be paid in cash today, come in addition to the profit-sharing plan which was inaugurated several years ago and which will be continued. It is the intention of the Ford organization to make the distributions of these houses. of these bonuses an annual event if the earnings of the company

taken to work out the details of the bonus and investment plans announced today. It always has been the Ford policy to discourage big dividends to non-producing stockholders, and to use profits in rewarding labor and in expanding industry. This policy, as Henry Ford regards it means not only good pay and a share in the profits for the workers, but the em-

not only good pay and a snare in the profits for the workers, but the employment of more and more people as the business grows.

Henry Ford holds, and has repeatedly stated it as his belief, that no man should be permitted to own stock in an industry unless he plays a productive part in the operation of that industry, and the initiation of the investment plan is a practical application of that belief.

Under the investment plan certificates will be issued in the names of employees in denominations of \$100, \$500 and \$1,000. Only persons in actual and active service of the organization will be permitted to buy or hold certificates.

nouncements is not new with the Ford organization. The history of the company for the last five years shows that its ideal of industrial justice has always been high. In 1914 the Ford Motor Company announced a minimum pay of \$5 a day since which time it has distributed approximately 100 million dollars in profits to employees. Following this Mr. Ford was sued by minority stockholders and compelled to pay dividends instead of reinvesting earnings and increasing wages as he desired. Sometime later, however, came the announcement of a \$6 a day minimum scale of pay and then the purchase of the holdings of minority stockholders by Henry and Edsel Ford.

SMALL Y. W. C. A. IS **COMMUNITY CENTER**

Recreation for Girls is important Fea ture of Work.

Fifty-two young women in the United States are known as Y. W. C. A. "town secretaries." All of which means that the fifty-two are organizing recreation work for girls and for the community at large in towns of less than 10,000 inhabitants, The Y. W. C. A. may be in one rent-

ed room or more. It may be a whole building, but at any rate there is a recreation room and if possible a kitchen reading and writing rooms. If the Y. W. O. A. has a building of its own ! becomes a community center, where all women's organizations may meet.

How Competition Helps You

The competition that exists among the hundreds of meat distributors, large and small, means

> Rivalry in Prices Rivalry in Service Rivalry in Economy Rivalry in Quality

Swift & Company sells meat at the lowest possible price, consistent with quality and service. Our profit of only a fraction of a cent a pound on all products is evidence of keen competition.

Swift & Company must provide the best service to your dealer or he will buy from our competitors. This means a supply of fine fresh meat always on hand for you at your dealer's.

Swift & Company must keep down manufacturing and selling costs, and use all by-products to avoid waste, or else lose money meeting the prices of competitors who do.

Swift & Company must make its products of the highest quality, or see you turn to others. This means better meat for you and a greater variety of appetizing, wholesome food.

We are as glad for this competition as you should be. It helps to keep us on our mettle.
